The Night of Lymphology

October 1<sup>st</sup> – 2<sup>nd</sup>, 2021

Hybrid

Final programme

# The Night of Lymphology

## Therapeutical options – comprehensive and interdisciplinary

Dear Ladies and Gentlemen,  
Dear Colleagues,

After our first “Night of Lymphology 2019”, I would like to invite you to our follow-up two-day symposium in October 2021.

Medicine and science are two constantly changing fields, especially in lymphology. Therefore we would like to present the latest progress, inspiring insights and standardized implementations of lymphology in daily clinical routine.

Topics range from conservative and surgical therapies in lipoedema and lymphoedema, as in the fields of obesity and venous insufficiency. In these particular medical fields, interprofessional network is crucial to provide the best possible care to improve patients’ quality of life.

International faculty of this symposium will look into various diagnoses that occur by themselves, as well as their mutual influences. With the focus on the optimal treatment for our patients, let us encounter the fascinating field of lymphology from comprehensive and interdisciplinary perspectives. May our two-day interdisciplinary symposium “The Night of Lymphology 2021” enrich and broaden your knowledge in this engaging field.

We express our sincere appreciation to all speakers, chairs, participants and partners.

We are looking forward to welcome you in the heart of Europe.

Kind regards,  
Assoc.-Prof. PD Dr. med. Chieh-Han John Tzou, MBA
